## **Report on Indian Games Played by Students**

Department of Telugu , Vivekananda Government Degree College in collaboration with Samskruthi foundation Organised a programme about Indian games today 19-1-2023. Faculty encouraged students to play games of Indian origin. Students discussed how Indian games specially games played by Telugu people like AshtaChemma, Tokkudubilla and Gachhakayalu are useful for physical and mental health. Ashtachemma game helps in understanding other persons thoughts. Gachhakayalu game increases concentration. Tokkudubilla controls body movements. Students understood the science behind these games and with less resources how they are benefitting people. 10 students played conventional Telugu games like 1. Ashta chemma, 2. Gachhakaayalu, 3. Tokkudubilla and explained about it . Total activity has been recorded and sent to Samskruthi Foundation.

Students and faculty expressed their gratitude towards Samskruthi Foundation for their motivation in organising this programme.
